# Terminology

- WE NEED SINGLE TERMINOLOGY in order to understand each other
- Slovakia: **terminological inconsistency in the field of education** with the EU and the world / UNESCO - GRALE, EU – European Agenda for Adult Learning ...
- We cannot implement EU policies in the field of ALE properly.. We need to define **Adult Learning and Education (ALE)**
- System error: **ALE is unnamed sector**

# Renaming Ministry of schooling

financing only schooling of children and students.. such a world no longer exist!

MINISTRY OF SCHOOLING  
YOUTH AND SPORT ?!

## Data / Slovakia

- Only 8.3% of adults have not acquired at least an upper-secondary qualification (EU average: 21.9%) (Eurostat, 2018)
- However, only 2.8% of adults aged 25-64 had had a learning experience in the last 4 weeks in 2020 (EU average: 11.3% / Eurostat)
- 
- Consequently, only 37.9% of low-qualified adults were employed (EU average: 56.8%) (Eurostat, 2018)
- **We do not have sufficient data on ALE in Slovakia**

# Validation

- recognition of non-formal education and informal learning?
- National projects

SIOV – Asseco / Qualification verification system

[www.kvalifikacie.sk](http://www.kvalifikacie.sk)

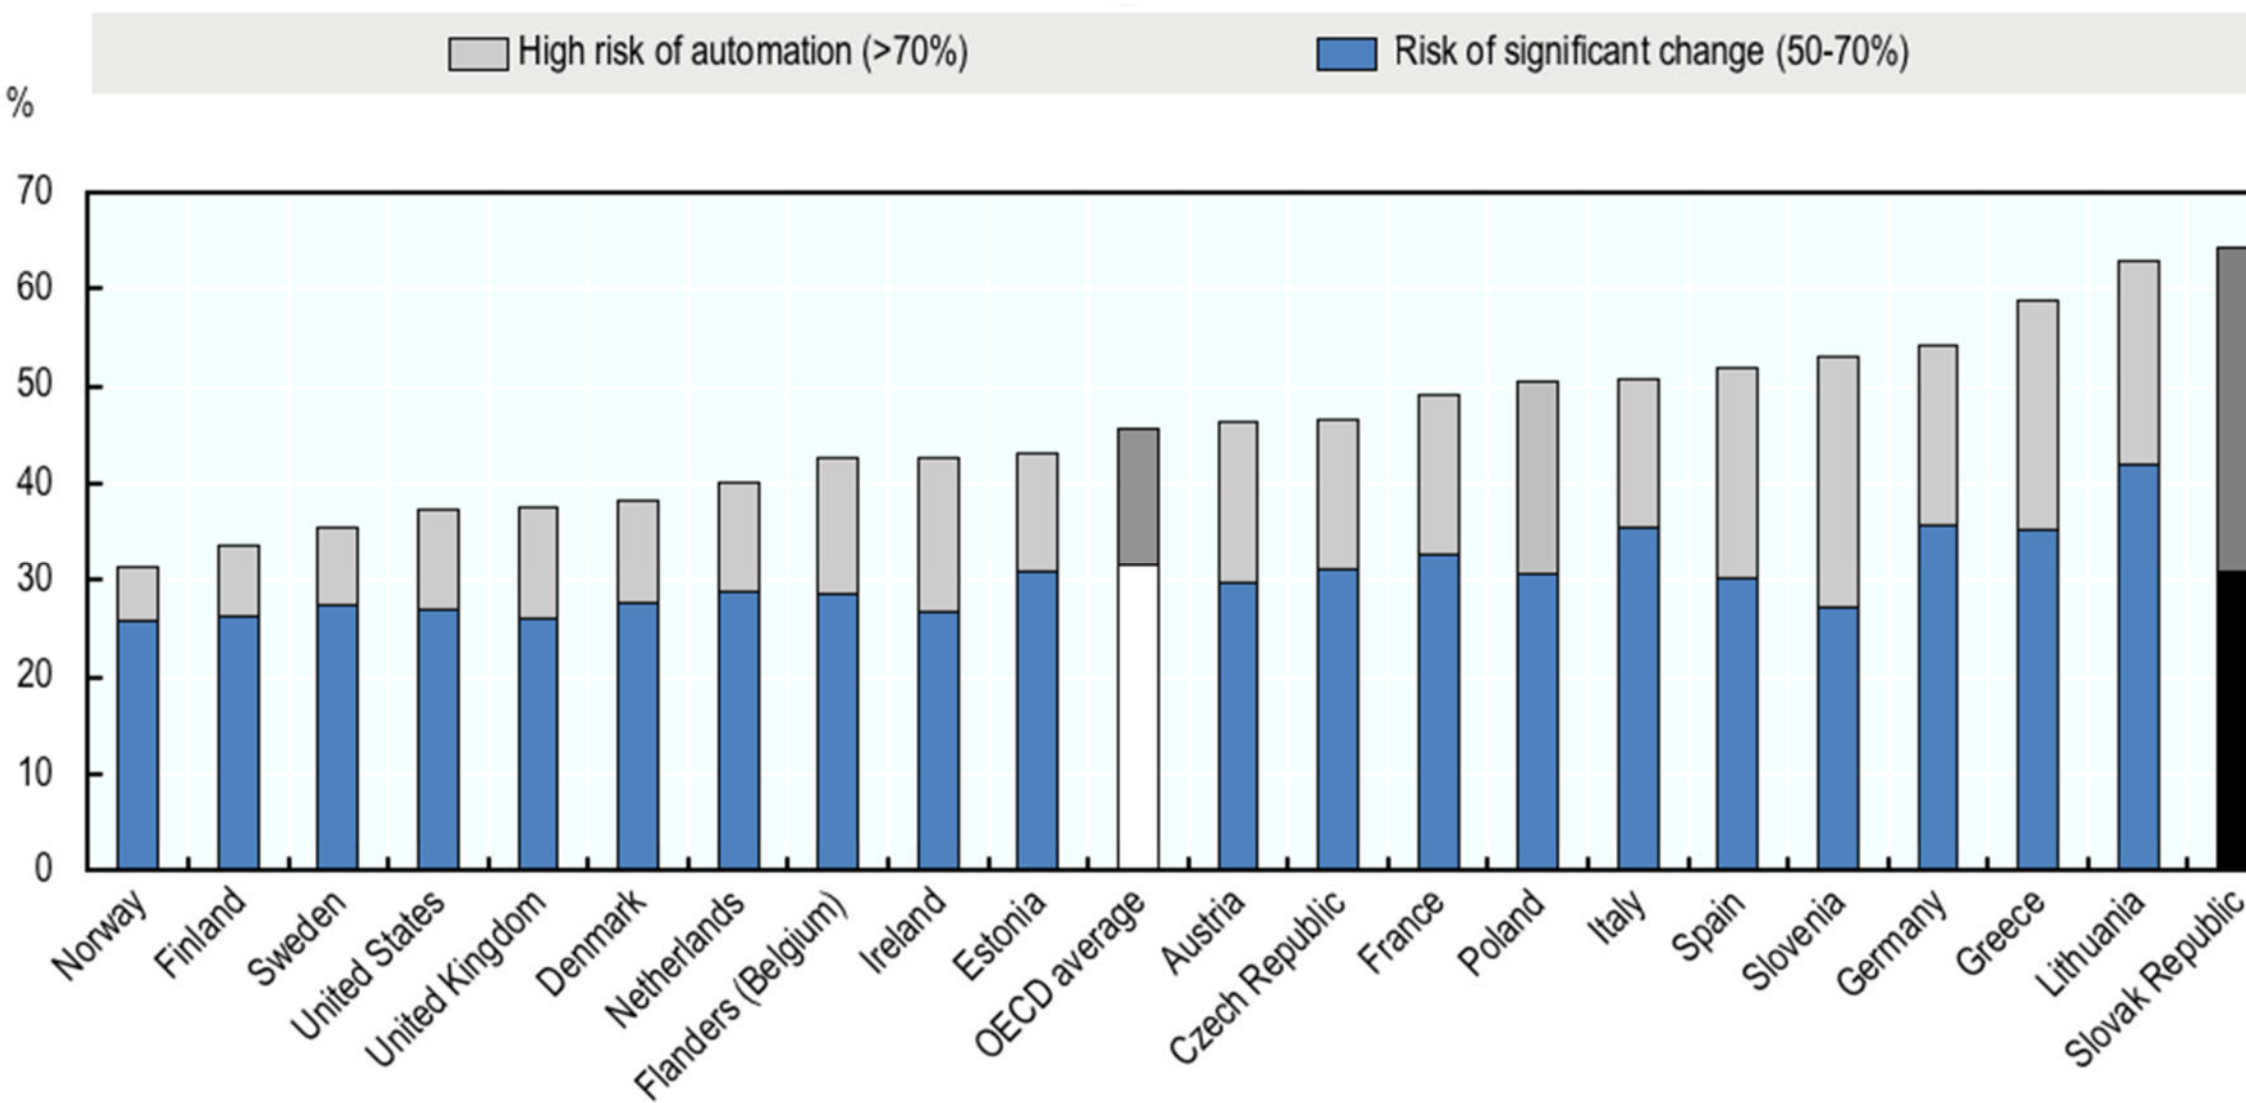

MPSVR – Trexima / Sector-driven innovations

[www.sustavapovolani.sk](http://www.sustavapovolani.sk)

# Financing

- ILA as AIVD agenda from 2014
- Financial tool to support companies and individuals in lifelong learning (**Individual Learning Accounts**) is needed (OECD, EC 2019)
- On 1 January 2020, the exemption of income tax provided by the employer for his employee was extended to any training of the employee that is related to the activity or business of the employer.
- In the sense of this new wording, e.g. a contribution for university education may also be provided to the employee as a benefit, and this is exempt from tax.
